

Appl. No. 09/818,074
Remarks dated July 13, 2005
Reply to Notice of Allowance of May 27, 2005

REMARKS

The specification is amended by Applicants to fill in a missing serial number reference.

Also, in the Notice of Allowance, the Examiner stated that it is "clear from the preamble [of claim 43] that the modules are embodied within a computing system and thus the claim is not directed towards a purely software implemented system." Applicants submit that claim 43 speaks for itself and its scope is in accordance with the language of the claim. The claim is patentable for at least the reasons provided in the file history.

It is believed that no extensions of time or fees are required, beyond those that may otherwise be provided for in documents accompanying this paper. However, in the event that additional extensions of time are necessary to allow consideration of this paper, such extensions are hereby petitioned under 37 C.F.R. § 1.136(a), and any fees required (including fees for net addition of claims) are hereby authorized to be charged to Hewlett-Packard Development Company's Deposit Account No. 08-2025.

Respectfully submitted,
